The slogan of Java is "WORA" here we need to reuse our classes and we can create multiple objects with a single class.

Hammer

Blacksmith

Engineer

1 HR: To gather raw material.

2 HRS: To boil the raw material.

2 HRS: To boil the raw material.

4 HRS: To beat and shape (Hammer)

7 HRS to create the Hammer

3 HRS: To create a dye diagram class

3 HRS: To create original dye Object

1 HR: To cast the liquid in the dye

8 HRS to create the Hammer

100 X 7 = 700 HRS

100 X 4 = 400 HRS
