What is a Package ?

* A Package is nothing but folder in windows.

* It is mainly used to arrange the programs in particular manner so fast searching is possible.

Ravi

Songs
        Movies
Softwares

Ravi folder
(Package)

Drawbacks :
----
1) Fast searching is not possible.
2) We can't reuse the name.

Ravi
        Movies
Songs
All   All
Songs   Movies
All   All
S/Ws   java
        Pro   Java Programs
Software

* In this approach fast searching is possible
* We can reuse the name.

* A package must be the first statement of our program.
